Operation Instruction

Tap-on switch

Slightly tap the switch can turn on the light instantly and loose the switch will turn off the light.

Slightly click the switch continuously to cycle the light through high-med-low.

Turn on/off the light

Select a working mode by slightly touching the switch. Full press the switch to turn on the light.

Intelligent Memory Circuit

XSWORD L3KS remembers the working mode after staying the mode for a few seconds.

Battery Replacement

Take off the tail cap. Then insert 1pc of 21700 battery with the positive terminal towards the head. After loading the batteries, screw the tail cap on with all of the threads in proper alignment.

Warning

XSWORD L3KS is a high-intensity lighting device capable of causing eye damage to the user or others. Avoid shining the flashlight directly into anyone's eyes please.

Usage and Maintenance

- Disassembling the sealed head can cause damage to the light and will void the warranty.

Warranty Card

User Name _____ Tel _____

Email _____ Serial Number _____

Purchase Time _____

- High quality battery is recommended. If the light will not be used for an extended period, remove the battery, or the light could be damaged by electrolyte leakage or battery explosion.
- Long-term use can result in O-ring wear. To maintain a proper water seal, replace the ring with an approved spare.
- When the head part or tail cap can't be turned smoothly, apply silicone grease on threads please.
- MAXTOCH batteries are suggested. The highest mode may not work properly if unsuitable batteries are used.

Optional Accessories

MAXTOCH offers various accessories to meet different requirements. You could learn more from our online store <https://maxtoch.aliexpress.com>
